**SECTION IV. OPEN-ENDED QUESTION**

Statewide surveys indicate the top issue on the minds of voters in North Carolina is the economy and jobs. With that in mind, please explain your vision for economic growth and job creation.

North Carolina continues to lead the way in  
Business & industry recruitment. We are constantly  
ranked as a top state to do business in. Lowering  
the corporate tax rate would help attract even more  
industry to the state. Continuing to fund education  
and improve test scores is also very important. We  
must have a well educated & eager work force  
available when companies choose to locate here.

Providing incentives to lure business & industry is  
not the best way of doing business. However, we must  
remain competitive with other states when recruiting  
business & industry to NC. We must also use funds  
to help existing businesses remain in NC and  
expand operation. Expansion of operation, investment  
in new tools & equipment, & hiring additional employees  
will grow North Carolina's tax base and put us back  
on solid financial footing.
