**SECTION IV. OPEN-ENDED QUESTION**

Statewide surveys indicate the top issue on the minds of voters in North Carolina is the economy and jobs. With that in mind, please explain your vision for economic growth and job creation.

According to the nonpartisan Tax Foundation, North Carolina ranks 39<sup>th</sup> among the states in business friendliness. In other words, we tax our citizens and over-regulate businesses more than all but 11 states. (Can you say "New York, New Jersey, California... NC). We also rank 9<sup>th</sup> in the country in unemployment. To my way of thinking, these two rankings are correlated, not coincidental. Our current legislature has tried to counter our uncompetitive tax code by offering multi-million tax breaks to selected large companies to locate here. This is counterproductive, as all studies show that almost 100% of net employment gains in the U.S. in the last 20 years have been provided by small businesses — the very ones paying for the corporate welfare deals.

Since corporate income taxes account for only 7% of NC's budget, why not ABOLISH this tax. I believe the new employment this would generate, as well as the corporate welfare we would no longer feel a need to offer, would more than make up for lost revenue.
