**SECTION IV. OPEN-ENDED QUESTION**

Statewide surveys indicate the top issue on the minds of voters in North Carolina is the economy and jobs. With that in mind, please explain your vision for economic growth and job creation.

Create Jobs & Economic Growth -

North Carolina needs sustainable job growth from small businesses not expanding government bureaucracies.

We must lower tax and regulatory burdens, support innovation, research & development, and promote on-the-job training in private sector.

I support across-the-board tax relief.

Fiscal Responsibility -

The cycle of reckless spending, job-killing taxes, and deeper debt has to stop. In 2009, the NC Legislature increased taxes by over \$1 Billion.

From 2000-2008, NC's total government debt went from \$2.5 Billion to \$6.7 Billion.

NC should return to spending levels similar to that in 2000-2005, indexed for population growth and inflation. Additionally, zero-based budgeting should be implemented.
