SECTION IV. OPEN-ENDED QUESTION

Statewide surveys indicate the top issue on the minds of voters in North Carolina is the economy and jobs. With that in mind, please explain your vision for economic growth and job creation.

My district has great potential for economic growth and job creation along the southern part of Person county and the northern part of Durham County. There is an airport that can be used for commercial flights and train tracks that can provide light rail to relieve the 8,000 road trips each day coming into the RTP for work. I would like to set up a small business grants to provide relief to struggling businesses and a way to provide start up capital for entrepreneurs who want a business that have not been able to find a funding source. There are empty warehouses that could be used for internet ^{services} and bakeries funded from the governor's jobs initiative program to supply M^cDonalds and other fast food chains. Land is plentiful, but not income producing, so I recommend going green and outsourcing corn to other counties producing ethanol for fuel. We have a speedway that can train drivers and a technical school that we can utilize for teaching them the business side of NASCAR. These are just a few of the ideas that I can bring to the table as the elected official of NC House 55.
