**SECTION IV. OPEN-ENDED QUESTION**

Statewide surveys indicate the top issue on the minds of voters in North Carolina is the economy and jobs. With that in mind, please explain your vision for economic growth and job creation.

Job creation ~~can~~ only truly occur in the private sector. Therefore, we must revise our tax codes in order to create an environment that facilitates domestic business growth and serves as an incentive for out of state businesses to relocate and/or expand to North Carolina.

We must curtail all unnecessary spending, without exception. Our budgets should be based on historical revenue amounts collected, with the States Constitutional responsibilities commanding first and adequate spending.

The State Chamber of Commerce should be integrated with all county E.D.C.'s and funded, to successfully market NC nationwide to help establish the State as the "Location of Choice" for business expansion and/or relocation, for tourism and retirement.

By incorporating these initiatives we can relieve the tax burden on working families and small business by spreading lower taxes over a broader tax base.
