**SECTION IV. OPEN-ENDED QUESTION**

Statewide surveys indicate the top issue on the minds of voters in North Carolina is the economy and jobs. With that in mind, please explain your vision for economic growth and job creation.

Living in a rural area of North Carolina, we have seen most all of our manufacturing jobs leave. We have high unemployment. The people who live in Wilkes County are hard working, God fearing people who want to work an honest days work for an honest days pay in order to support their families. The county and towns are working in partnership with the Community College to retrain our work force which will, hopefully, help us attract new businesses and retain existing ones. Our school system has implemented a technology program, mostly with private funding, to equip our students to compete in the global market. We must overall our tax system and reduce our tax burden on working families and businesses. Improving our business climate is a must to gain long-term business commitments. We must all work together to make North Carolina that place businesses want to locate and invest in their long range plans.
