(Please proceed to Section IV. Open-Ended Questions)

SECTION IV. OPEN-ENDED QUESTIONS

1. A primary focus of the U.S. Congress this past year has been to reform health care and health insurance in the United States. Please briefly explain your recommendations for reform and the roles of the government and private sector in your proposal.

① Eliminate the Democrat propoganda that there are people who are being denied health care. There aren't.

② Make people realize that if they don't believe that their health is worth paying for, that there is absolutely no reason for anybody else to pay for it.

③ Tort Reform. Tort Reform hinges upon the elimination of Frivolous lawsuits. Wal-Mart has successfully minimized frivolous lawsuits by developing a reputation for going to court every time they are sued. If Health Care providers are required to go to court every time they are sued for more than ~~they actually~~ the patient actually pays for their care, Frivolous lawsuits that are intended to be settled out of court will be eliminated.

Furthermore, At this level of progression of our society we have specialists in almost every professional field. The definition of "A Jury of one's Peers" should specify that a professional who is being sued for his/her professional behavior should be have a jury of people who have the same education and experience in the defendant's Professional Field.

2. Statewide surveys indicate the top issue on the minds of voters in North Carolina is the economy and jobs. With that in mind, please explain your vision for economic growth and job creation.

Job creation and economic growth are the result of a minimalization of governmental interference with business. A really nice start would be getting all Socialists out of Congress, starting with Obama, Pelosi & Reid. Next, steps should be taken to prevent further idiocy at the hands of the Federal Govt. For example, I am writing legislation that I call "The Deficit Bill", which would penalize elected Federal officials first whenever they run a deficit. Penalties include a reduction of salary by 1% for each 1% they go over budget, no raises, and no benefits including "insurance" and retirement stipends as long as their deficit continues.

For more immediate results, I would like the payroll tax reduced by 50% and increased incrementally back to 100% as ~~the~~ unemployment decreases to 4.5%.
