SECTION IV. OPEN-ENDED QUESTIONS

1. A primary focus of the U.S. Congress this past year has been to reform health care and health insurance in the United States. Please briefly explain your recommendations for reform and the roles of the government and private sector in your proposal.

I believe in a free market based plan that reduces the costs to federal taxpayers to fund giveaway programs like medicaid. Solution: Transfer the responsibility and authority for medicaid (the federal and state program of health care for the uninsured) to the states in accordance with the states Rights amendment (10th) to the U.S. Constitution. This will save the federal Government \$300 Billion per year which can be used for debt reduction, and will give the states the power to come up with their own solution.

2. Statewide surveys indicate the top issue on the minds of voters in North Carolina is the economy and jobs. With that in mind, please explain your vision for economic growth and job creation.

2 basic concepts: Reduce the corporate tax on businesses from 35% to 0%, keep government out of the way.
- A program that will accomplish the goals above is the Fairtax. I am endorsed by U.S. House Rep. John Linder, the author of the Fairtax book and the sponsor of the Fairtax bill in Congress. We have to eliminate the \$800 Billion a year trade deficit with other nations by bringing manufacturing jobs back to the U.S. A reduction of the corporate tax rate will do this. The Fairtax will also drastically reduce the Federal Budget deficit by collecting \$400 Billion in uncollected taxes.
Until our government pays down debt, the economy and jobs will continue to suffer.
