North Carolina Free Enterprise Foundation

1. Health reform -

Insurance policies for businesses and individuals voluntary

Federal government does not get any access to our financial records or medical records

If individuals choose to buy health insurance the premiums are tax deductible

If individual pays medical bills without insurance, the medical payments are tax deductible and may be carried forward to the next year's tax return when medical deductions bring taxable's income to zero.

Public option

2. My vision for economic growth

My vision for Free Enterprise begins with fair competition to generate more competition.

This means businesses cannot sell below cost in an effort to eliminate competition

In my opinion bribery and political influence play a role for and against regulation in many cases to eliminate competition. This is causing horrible environmental problems.

North Carolina is taxing without representation in its annexation laws and property tax laws concerning real and personal property.

Huge companies need to be broken into smaller companies.

Huge banks are a big problem because they are not loaning to some smaller businesses causing bankruptcies, is my guess.

Big businesses are getting laws passed to eliminate competition from smaller companies.

In my opinion basically all small businesses are under attack and big business is using the government to attack and eliminate smaller businesses.
